Re: Tentative Approval, Geneva Steel Company, Iron Mountain Mine, M/021/008, Iron County, Utah

Dear Mr. Benson:

The Division has completed its review of the final revised permit application for the consolidated Iron Mountain permit application. The latest information was received on April 10, 1995. The revised application is now complete and technically adequate. The Division hereby grants its tentative approval of the application and will seek approval of the proposed amount and form of reclamation surety from the Board of Oil, Gas and Mining during the April 26, 1995 hearing. It is our understanding that the final signed copies of the Reclamation Contract Agreement and the surety bond form will be delivered no later than that date.

We thank you for your continued cooperation, personal assistance and patience in bringing this time consuming, complicated, and sometimes frustrating, permitting action to a close. We look forward to working closely with you and your staff as Geneva continues to develop its mining operations in this mining district.

Sincerely,

D. Wayne Hedberg
Permit Supervisor
Minerals Regulatory Program
